TM1990A-F5

Fixed-ID Touch Memory key

Read-only Touch Memory key with a factory-set ID for contact identification. Choose it when each key needs a fixed identity. Verify ID reading and registration on your actual controller before a volume order.

REFERENCE PRICE	BULK ORDER MINIMUM	FREE SAMPLES
0.25-0.50	**500**	**10 pieces**
USD / piece, plastic handle included	pieces; usually ready in 1 week	Ready in 3 days.

You pay sample shipping. Preparation times exclude transit time. Final price depends on quantity, supplied version, marking and packing; transit time, shipping charges and taxes are confirmed with your quote.

01 Include in your inquiry

- Order quantity, delivery country and destination postcode.
- Target reader or controller model and firmware version.
- Housing colour, key fob, marking and packing requirements.

02 Confirm before a bulk order

- Agree the supplied version, seller/payee, payment terms and dispatch date in the quote.
- Request the supplied housing drawing; check fit, dimensions and tolerances against your equipment.
- Validate samples on the actual target system, then agree batch acceptance criteria. Use page 2 to record results.

Sample acceptance record

Blank worksheet for your own sample checks. No tests or approvals have been recorded.

Company / project

Order / quotation reference

Sample batch / sample IDs

Quantity received / tested

Target reader or controller

Target firmware / software

Housing / drawing revision

Test conditions / setup

Record pass, fail or not tested in the decision column; agree acceptance criteria before testing.

Step / check	Observed result / evidence	Decision
01 Record each sample ID and the reader/controller used.		
02 Repeat ID reading after removing and reconnecting the sample; check consistency.		
03 Register the sample in the target system and verify authorised recognition.		
04 Check housing fit, marking, key fob and packing against the agreed specification.		
05 Record exceptions and confirm the criteria for the bulk batch.
